

Rio Paso Web Design Website Maintenance Plans

A maintenance contract is a pre-paid term agreement for Rio Paso Web Design to work on your website, maintain and add pages, content or text on a regular basis.

Websites are not intended to be static nor should they be, especially if you want to continue to grow your rankings in major search engines, enhance your relevancy to clients and visitors and keep your site "fresh". *There is tremendous value in an active website that is constantly improving and evolving and a site that is constantly evolving tends to perform much better in major search engines.*

The worst thing possible with a website is to **“set it and forget it”** unless you have no intention of acquiring top rankings in major search engines or continuously increasing your site traffic and site conversions or remaining topical to repeat visitors.

Revising and maintaining your website is probably the most important service you should seek when choosing your web developer. **Rio Paso Web Design** offers website revision, maintenance and expansion services at a very affordable cost in comparison to Rio Paso's standard hourly rates and at much lower rates than virtually all other companies. Changes and updates will be done for you at a rate less than the non-contracted hourly rate. (\$HÍ .00/hr) A maintenance contract for your website also gives you priority over non-contracted services, which in certain circumstances is quite valuable. In addition, I can revise your website more easily than others might, if I was the original designer. This continuity of service is an important component of a website monthly maintenance agreement with **Rio Paso Web Design**.

Your expected frequency of website revisions and vision towards the continued growth and evolution of the site should influence your maintenance contract choice. You have these options:

Pay-As-You-Go: Revisions of your website can be made as often as desired, based on my standard hourly rate of \$HÍ .00 per hour, with a two hour minimum charge. This includes the website revisions and uploading of all changes onto the Internet, as well as the addition of new pages. Creation of graphical elements will be billed at the rate of \$I G00 per hour.

Creation of graphical elements that exceed the G0 hour maximum will be billed at the rate of \$I G00 per hour. If less than 2€ hours of allotted maintenance is used during the course of 12 months, renewal of the plan will not be required until all available hours have been exhausted (referred to as “rollover hours”). **Maintenance plan may be upgraded at any time within the first six months.**
